Subject: RE: NWMB Review of Nunavut Fisheries Association's Request for NWMB Decision and Recommendations Concerning Access Fees Charged to the Nunavut Fishing Industry
Date: Tuesday, January 26, 2021 7:09:32 PM

Good evening,

Thank you to everyone who participated in this afternoon's call. As per the direction provided by the NWMB, it would be greatly appreciated if our stakeholders could provide the Board with their position on these issues and support for the NFA request in advance of the Board's upcoming deadline for their March 2021 meeting. Our submission will largely remain the same, I will be appending additional details on the market prices of borealis vs montagui shrimp, the costs that have been covered by industry to cover the annual WAZ survey, the 50 t increment access fee payment process used in other exploratory areas, and the reachout NFA has made to stakeholders on these issues. The revised document will also be shared in advance of the Board's deadline.

As indicated by the NWMB, consensus amongst our stakeholders would be very helpful in terms of the Board's decision making. Please let me know of any additional questions you may have and we would greatly appreciate your support on these issues, which are unfairly burdening our industry members.

Regards,

Brian

Good morning,

Looking to set a meeting time to discuss the access fees issues with the GN, QIA and NTI. Would 1 pm or later EST tomorrow (Tuesday) work for each of you? Let me know what time would be best and I will send around an invite.

Attached again is the NFA submission to the NWMB.

Regards,

Brian

Good afternoon,

Following up on our access fees issue and obtaining input from the GN, NTI and QIA. We need to bring this back to the NWMB for their next Board meeting and need your input/response on the issues and/or a note indicating that your organization has been consulted. We can organize a call to discuss collectively or individually if you prefer.

Regards,

Brian

Subject: FW: NWMB Review of Nunavut Fisheries Association's Request for NWMB Decision and Recommendations Concerning Access Fees Charged to the Nunavut Fishing Industry

Importance: High

See attached from the NWMB denying our request for a chance to present this issue at their upcoming December meeting. As you recall I did reach out to each of you on this issue and requested your input and support. With respect to DFO, it was actually David Whorley who had

indicated to one of my members that this needed to go to the NWMB for review. I would greatly appreciate if you could each inform the NWMB of this prior contact and request and, if possible, indicate your support for our position. I have sent an immediate request for the NWMB to reconsider their position and this would greatly help. Otherwise our industry will continue to be treated unfairly on this issue into another fishing year.

Stakeholder support would be greatly appreciated. If you are unable or unwilling to provide this support please let me know as soon as possible.
